MOOD OF TELANGANA

AS ON 20.04.2025

Present survey details and Methodology

1. Sample strength

Total number of samples collected in 113 no. of assembly constituencies – **32,500** only.

2. Time Frame

During 01-04-2024 to 17-04-2024

- 3.** SAS Group, IPSS team Hyderabad, conducted a comprehensive field survey across 113 assembly constituencies in Telangana, collecting an average of 280 to 290 samples per constituency.
- 4.** The sampling methodology incorporated a mix of stratified (selective) and random sampling in a 55% to 45% ratio, ensuring balanced representation from diverse segments of the population.
- 5.** The survey was carefully designed to reflect the socio-economic and political demographics of Telangana, covering all three major regions: North Telangana, South Telangana, and the Hyderabad–Rangareddy belt.

- 6. The sampling ensured inclusivity across age groups, gender, caste, income levels, and urban–rural divides.**
- 7. With rigorous fieldwork and scientifically grounded sampling techniques, the survey achieved an average margin of error between 1.5% and 2%, ensuring reliability and credibility of the findings.**

NOTE

The number of samples collected per each constituency is as follows

- a) 130 samples collected on Random sampling basis
- b) 160 samples collected on stratified/ selective sampling basis.

8. Selective samples, covers the following strata of population including.

1. Farmers and lease farmers
2. Male and Female of different age groups
(18-30 years, 31-40 years, 41-50 years, 51-60 years and above 60)
3. Serving Government and retired government employees
4. Beneficiaries of all government welfare schemes to assess the satisfaction levels.
5. Wage seekers
6. Employed in private sector
7. Unemployed youth
8. BC Community (covering the sub castes)
9. OC Community
10. Muslim community
11. SC/ST community
12. College and university students
13. Small/ Middle class business persons

14. Local body leaders such as MPTCs/ZPTCs and gram panchayat surpunches.
15. Basing on economical standards (our group collected samples from poor/very poor/middle class/rich persons).
16. ASHA/Anganwadi workers
17. Housewives

MOOD OF TELANGANA As on 20.04.2025

MAIN FACTORS (M-FACTOR) THAT WILL PLAY PROMINENT ROLE IN TELANGANA IS AS FOLLOWS

1. Inflation
2. Farmers and lease farmers problems
3. Law and order
4. Basic infra structure (Drinking water, roads, electricity, PHCs etc.)
5. Unemployment
6. Satisfaction and dissatisfaction level of beneficiaries on government welfare schemes and the promises made to public by the ruling party in telangana.
7. Development activities
8. Performance of the present MLA's and Ministers in Telangana.
9. Group politics in parties.

OBSERVATION

1. There is public dissatisfaction because the **promises made by the INC party** (Mahalakshmi, Rythu Bharosa, Indiramma houses, Yuva Vikasam, Cheyutha) have **not been implemented** or are **facing serious delays**.
2. Ministers and public representatives, including the CM, are **constantly criticizing the former CM KCR**, which is creating **public backlash**. People feel that they elected this government expecting **better governance** than the previous one, not to **blame the old administration**. The Congress government is **failing to focus** and appears to be playing **diversion politics**, which is not sitting well with the public.
3. Many **Congress workers/and party cadre** who stood by the INC party for the last 10 years contributed to the 2023 victory. However, **lack of coordination** between party cadre and MLAs, along with **group politics**, is **damaging the party's image**.
4. In constituencies where **defected BRS MLAs joined Congress** and are now supporting the government, there is **strong public resentment** towards them.
5. The public is also becoming **dissatisfied with the government** in terms of New recruitments and job opportunities.
6. People are **comparing the current governance** with the **former Telangana administration** and are **questioning the governance style** of the current regime.
7. Issues like **land pooling in Lagadcherla** and **land acquisition for Central University in Hyderabad** have led to **public discontent**.
8. Regarding HYDRA (possibly a public projector system), although **useful**, it is **drawing criticism**. The public feels that it is **targeting only the poor and middle-class**, while the **wealthy are unaffected**.

9. Providing **fine quality rice to the poor** and **recent classification of SC community** has benefited the government and the INC party to some extent.
10. There is **significant dissatisfaction among farmers, students, unemployed youth and women on the present Govt in Telangana.**
11. **Currently, the INC party is expected to lose some Assembly seats in North Telangana compared to the 2023 elections.**
12. In Hyderabad and Rangareddy districts, there is more **dissatisfaction** with the present government's performance. Moreover, the INC party has **not made a significant impact** in these districts.
13. BRS has to improve its vote share in old **Khammam and nalgonda** districts. In these two districts the **performance of BRS is not up to the mark.**
14. BRS has failed to improve the performance in **newly formed Nirmal and mancheria districts.**
15. BJP has **improved its vote share** considerable in **some pockets of north telangana and in Hyderabad city.** But the state average is **limited to 18% only.**

IMPORTANT NOTE: THIS IS NOT THE FINAL SURVEY. THIS SURVEY IS TO KNOW ABOUT THE MOOD OF TELANGANA AS ON 20-04-2025. THE GENERAL ELECTIONS OF TELANGANA ARE IN 2028 THE FINAL RESULT WILL DEPEND ON THE POLITICAL SENERIO PREVAILING AT THE TIME OF ELECTIONS, AND THE CONFIDENCE, AND NARRATIVE CREATED BY THE DIFFERENT PARTIES.
